LEEC viewing trolley

RIGID ROBUST, FULLY WELDED STEEL FRAME TROLLEY FITTED WITH AN UPPER ROLLER FRAME TO ALLOW SIMPLE TRAY TRANSFER TO/FROM A STACKING TROLLEY FROM EITHER END. FOUR, FULL WIDTH, FREE RUNNING, HIGH DENSITY PVC COATED ROLLERS PROVIDE THE TRAY SUPPORT.

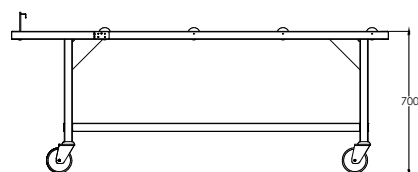

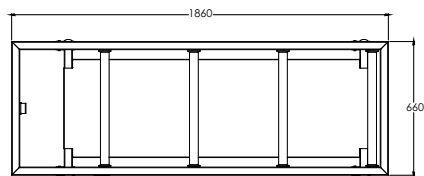

The rollers are equally spaced in the frame and removable for cleaning, maintenance. Finished in durable powder coated blue finish.

Every LEEC trolley is made to order to meet the exacting needs of every customer. LEEC prides itself on being able to deliver exactly what the customer wants and relishes the challenge of producing a trolley that is tailored to every specific customer need.

Upgrade all of the framework of the trolley from powder coated mild steel to Grade T304 Stainless Steel with a Grained and Polished finish so that the trolley matches the majority of mortuary equipment that is stainless steel. Stainless steel also provides better corrosion resistance than powder coated mild steel that can potentially rust if the paint is scratched.

PRODUCT CODE:

ENL-TP-VT	Steel Powder Coated
ENL-TP-VTSSF	Stainless Steel Finish
ENL-TP-B-VT	Steel Powder Coated Bariatric
ENL-TP-B-VTSSF	Stainless Steel Finish Bariatric

FEATURES

- Fully welded construction
- Full width, PVC coated rollers
- Removable tray locking pin
- Braked castors
- Can be loaded from either end
- Durable powder coat finish

OPTIONS

- Extra Heavy Duty - 320 kg
- Stainless Steel
- Design & Manufacture To Your Specific Needs

DIMENSIONS

Width	660mm
Length	1860mm
Height	700mm
